

PCCard-PC/104-Plus - MSMJ104+

Feature

- PC-Card peripheral
- PC104-Plus (PCI Bus)
- Single +5V supply
- Operating Temperature: -25°C to 70°C

Technical Specifications

FEATURES	FUNCTIONS
Function	PCCard—PC/104+
Controller	TI1520
Connector	PCCard
Bus	PCI
Onboard Flash	–
Remarks	–
Power supply	3.3V
PCI-Bus Voltage	3.3/5V
Operating Temperature	-25°C to +70°C
Extended Temperature	-40°C to +85°C
Weight (gr)	90
MTBF	>100'000h

Description

The MSMJ104+ is a dual PC Card compatible PC/104-Plus Bus interface. It uses a TI1520 controller that is fully compatible with the INTEL365 which follows Intel's exchangeable card architecture design specifications (ExCA). It supports PCMCIA devices such as SRAM, FLASH Cards, ATA hard disks, and I/O Cards like Modem, LAN and SCSI. The board is equipped with dual PC Card slots which is directly mounted onto the board.
